DIGITAL ASSET INSURANCE

The digital asset landscape is rapidly transforming how value is exchanged and how financial services operate. As this sector expands, organisations face unique challenges.

Our digital asset insurance solution is specifically designed for this evolving market. We combine cyber protection, professional indemnity/technology errors & omissions, directors & officers and financial crime insurance into a single, globally accessible solution. With access to Lloyd's A Rated markets, with strong financial backing and regulatory approvals in all major markets, our offering adapts to your business's scale and ambition.

Coverage

- **Directors & Officers' Insurance** - Protects company executives against claims arising from decisions made in their roles, including regulatory investigations and shareholder actions.
- **Cyber Insurance** - Covers losses from cyber and ransomware attacks, data breaches, and system failures - helping you recover quickly, indemnify you for legal defence and liability costs, and minimise disruption.
- **Professional Indemnity** - Safeguards your business against claims of negligence or mistakes in professional services or advice.
- **Technology Errors & Omissions** - Protects against financial losses caused by failures in your technology products or services, including software bugs and system outages.
- **Crime Insurance** - Covers any fraudulent acts targeting your business that result in a Loss
- **Direct and contingent business interruption** - Provides compensation if your business operations are disrupted by cyber incidents or attacks on your digital assets.
- **Social engineering fraud** - Protects against financial loss from scams where criminals trick your staff into transferring funds or sharing sensitive information.
- **On-chain and Off-chain Asset Protection** - Our policies are designed to protect digital assets whether they are held on the blockchain (on-chain) or in external systems and wallets (off-chain).

Who We Serve

- Centralised and decentralised exchanges (CEX/DEX), including regulated venues
- Wallet providers (custodial and non-custodial)
- Digital asset trading platforms
- Banks, financial institutions, and investment managers (including ETFs, hedge funds, private equity, and venture capital)
- Blockchain analytics, intelligence, and protocol development firms
- Cryptocurrency miners
- Tokenisation and real-world asset platforms
- Stablecoin issuers (fiat-backed)
- Decentralised identity and blockchain infrastructure providers
- Custodians and trading venues
- Liquidity providers, financial intermediaries, and investment infrastructure
- On/off ramp payment and settlement platforms
- Staking, treasury, and onchain exposure management platforms
- Hardware manufacturers supporting blockchain technology
- Crypto fintech and blockchain technology companies

If your business operates in the digital asset ecosystem and isn't listed here, please reach out - we're happy to discuss bespoke solutions.

Limits

- Limits can be tailored for each coverage area, with capacity available for Cyber, D&O, Crime and Technology E&O/PI modules - please contact us for specific line limits.
- Flexible limit structures to suit primary or excess placements
- Capacity tailored for organisations ranging from startups and unicorns to large enterprises
- Limits can be adjusted based on regulatory requirements, risk profile, and business growth
